

## Cody Consulting Group (CCG) CY2019 ANOC-EOC Data Grid Template Notes

### General:

The *CCG CY2019 ANOC-EOC Data Grid Template* includes the most commonly used variable cost-sharing fields necessary to create your versioned documents. The data grid template provides a starting point for you to customize content to fit your plans' needs. Feel free to add, delete and rename fields in your data grid, as necessary.

### Existing Clients:

The *CCG CY2018 ANOC-EOC Data Grid Template* has been updated to reflect changes to the PBP beta software for CY2019. Please note that the CY2019 PBP beta software may undergo changes between now and when finalized by CMS. These changes may impact the PBP reports slightly.

Cody recommends you use last year's grid as the starting point to update your grid for CY2019 referencing the list of changes below and the *CCG CY2019 ANOC-EOC Data Grid Template*. The process would be to rename your CY2018 data grid for 2019, delete the CY2017 columns and add the CY2019 columns to the grid. Some remapping of CY2018 cell content may be necessary. Also, please keep in mind, that, if you'd like some extra help setting up your CY2019 data grid, Cody Consulting Group offers consulting services to assist you.

### Changes to the CCG ANOC-EOC Data Grid Template:

The *CCG CY2019 ANOC-EOC Data Grid Template* includes the following updates per the CY2018 data grid.
